Protecting veterans' access to medical marijuana for PTSD & other wounds of war

The following supporters are publicly standing with us to ask New Mexico's lawmakers, employers and medical professionals to ensure that veterans will have access to medical marijuana.

We the undersigned agree that military veterans deserve legal access to medicine that works for them. By publicly endorsing this campaign, we are asking our state legislators, Governor Martinez, employers and medical professionals to support efforts to ensure every veteran's right to the medicine that works best for them and to ensure they are taken care of when they come home.
